

Multi Split Systems

Our EASYfit Multi-Split air conditioning systems are quite unique. Whilst they have 3 indoor units, each can be operated independently, heating or cooling an individual room at any time. They are also very economical as each circuit and indoor unit has its own compressor, which saves energy if only 1 or 2 systems are running.

Many systems of this type use just 1 huge compressor, which takes more energy to run. There is a outdoor unit (slightly taller than the standard size with single cooling fan) but otherwise relatively compact, and far less unsightly than 3 separate outdoor units.

Features

- ▶ Remote control with luminous night-light
- ▶ Adjustable fan speeds for rapid cooling or minimum noise
- ▶ Heat-pump model provides heating as well as cooling
- ▶ Oscillating air vanes for dissipation of cold air
- ▶ A timer feature that will turn the unit on and off automatically
- ▶ High efficiency air filters to remove odours and particles

Specifications

Power Rating	220-240V / 50Hz
Capacity Cooling	9000/9000/18000 (2.5/2.5/5.1kW)
Capacity Heating	9500/9500/19000 (2.7/2.7/5.6kW)
Power Input (W)	880/880/1650
Current Input Rated/Max (A)	4.3/4.3/8.5
EER (w/w)	3/3/3.2
COP (w/w)	3.41/3.41/3.41
Noise (dB(A))	23-33/50
Dehumidification (L/h)	1.2/1.2/2.2
Airflow (m ² /h)	400/400/750
Net Dimension (mm) (L/D/H/) Indoor	2-785x175x275/1080x200x300
Net Dimension (mm) (L/D/H/) Outdoor	1000x440x1280
Net Weight (kg) Indoor	9 / 9 / 18
Net Weight (kg) Outdoor	123
Max Room Size (m ²)	20 / 20 / 40m sq
Max Conservatory Size (m ²)	9 / 9 / 18m sq
Connecting Pipe Length Inc	4m / 4m / 4m
